***Allowable Subject Matter***

Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose a process as called for in claims 1 and 13 for selectively diolefins and acetylenes in an olefin plant feed stream. The closest art of record McCue et al (5,414,170) disclose a process of selective hydrogenation of acetylenes in an olefin feed. However, McCue does not disclose that (1) diolefins are also hydrogenated with acetylenes, (2) a gas phase selective hydrogenation and (3) the recycle of the separated liquid stream to the mixed phase hydrogenation zone.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan D. Dang whose telephone number is 571-272-1445. The examiner can normally be reached on Mon-Thu.
